Has the report (or variation of it) been presented to another Committee / Meeting? If yes, state the Committee / Meeting: Elements of this report are considered at Quality and Clinical Governance Committee and at Finance, Performance, Contracting and Commissioning Committee.													
Executive Summary This report provides an overview and assurance of any quality and performance issues. The report provides data on the following standards at the end of December 2020, including: <ul style="list-style-type: none"> 18 Week Referral to Treatment Target (RTT) Diagnostic and Cancer Waiting Time standards (CWT) Healthcare Associated Infections (HCAI) Primary Care GP Appointments Dementia Diagnosis The report provides data on the following standards at the end of January 2021, including: <ul style="list-style-type: none"> Accident and Emergency (A&E) Waiting Times The report provides data on the following standards at the end of November 2020, including: <ul style="list-style-type: none"> GP Prescribing Improved Access to Psychological Therapies (IAPT) The report provides data on the following standards at the end of Quarter 2 of 2020, including: <ul style="list-style-type: none"> Mental Health Transforming Care Programme Due to the CCG's requirement to focus resource on Covid-19 pandemic priorities, this report does not include detailed narrative. A verbal update, reporting by exception, will be provided at the Governing Body meeting.													
Recommendations The Governing Body is being asking to: <ul style="list-style-type: none"> Receive this report on quality and performance as assurance. Agree whether they are satisfied they are sighted on the current quality and performance issues and concerns and that assurance has provided that appropriate actions are being carried out to effectively manage any quality and safety issues or risks. 													
Monitoring Quality and Safety reports are brought to each Quality and Clinical Governance Committee for discussion and assurance. Improvement action plans are monitored through the relevant provider quality contract meetings or a subject specific quality improvement meeting where necessary.													

CCG Strategic Objectives Supported by this Paper		
	CCG Strategic Objectives	X
1	Strategic Commissioning: <ul style="list-style-type: none"> To take the lead in planning and commissioning care for the population of North Yorkshire by providing a whole system approach and to support the development of general practice. To make the best use of resources by bringing together other NHS organisations, local authorities and the third sector to work in partnership on improving health and care. To develop alliances of NHS providers that work together to deliver care through collaboration rather than competition. 	X
2	Acute Commissioning: We will ensure access to high quality hospital-based care when needed.	X
3	Engagement with Patients and Stakeholders: We will build strong and effective relationships with all our communities and partners.	
4	Financial Sustainability: We will work with partners to transform models of care to deliver affordable, quality and sustainable services.	
5	Integrated / Community Care: With our partners and people living in North Yorkshire we will enable healthy communities through integrated models of care.	X
6	Vulnerable People: We will support everyone to thrive [in the community].	X
7	Well-Governed and Adaptable Organisation: In supporting our objectives we will be a well-governed and transparent organisation that promotes a supportive learning environment.	X
CCG Values underpinned in this paper		
	CCG Values	X
1	Collaboration	
2	Compassion	
3	Empowerment	
4	Inclusivity	
5	Quality	X
6	Respect	
Does this paper provide evidence of assurance against the Governing Body Assurance Framework?		
YES		NO X
Any statutory / regulatory / legal / NHS Constitution implications	The CCG has a duty to ensure delivery against the NHS constitutional standards.	
Management of Conflicts of Interest	No conflicts of interest have been identified prior to the meeting.	
Communication / Public & Patient Engagement	Active and Meaningful engagement is one of the organisations strategic objectives and therefore performance against this objective will be measured in the CCGs performance framework.	
Financial / resource implications	No financial implications are detailed within this paper.	
Outcome of Impact Assessments completed	Where any policies, projects or functions are identified as having adverse effects on people who share Protected Characteristics the assessment and action plans will be included. As a formal impact assessment is not appropriate for this report.	

Sasha Sencier, Board Secretary and Senior Governance Manager

NY Performance Report v1.54

Date: 16 February 2021

Author: Mark Butcher

What the data is showing us...

Although there was a reduction in the number of patients still waiting on the incomplete pathway throughout the months of March onwards as fewer patients were referred, the number of patients waiting longer than 52 weeks to receive their treatment significantly increased and continues to rise. As a result of the suspension or reduction of treatment over the past 6 months the gap between the actual rate and the target has grown considerably but it is continuing to improve.

A verbal update will be provided at the board meeting.

What the data is showing us...

Although the activity for most of 19/20 was consistently between 7500 and 8000 patients the rate of patients seen within 6 weeks was at its highest 6.3%. As the COVID measures came into place the waiting list rose dramatically due to cancellations and cessation of most diagnostic procedures. Since its high point in April 2020 the rate has steadily come down even as the waiting list continued to rise upto and beyond pre-COVID levels. Christmas does appear to show that the second wave of COVID cases did affect the waiting list and the rate at which patients have to wait for their diagnostic procedures but not the same extent as as it was at beginning of April. The next few months of data will hopefully show the waiting list falling again as the COVID cases fall and services starting up again.

A verbal update will be provided at the board meeting.

What the data is showing us...

for patients seen within 2 weeks of a GP Referral - as the activity initially started to increase the rate of those patients seen within 2 weeks was under the target. It has now started to pick up again and continues to head towards the target. Future months will show whether this continues to be the case. For December the reasons behind the below target threshold were "Capacity Issues (i.e. not enough slots)" and "Patient Choice relating to first out patient appointment".

for patients seen within 2 weeks with suspected breast cancer - even though the activity was low for the first few month of 20/21 the rate of patients seen within 2 weeks was below target threshold but still kept close to it and surpassed it in August. Activity has remained steady in November and December. For December the reason behind being so far below target threshold were "Capacity Issues (i.e. not enough slots)".

A verbal update will be provided at the board meeting.

CWT treated - 31 Days - Radiotherapy	98.9%	97.7%	98.9%	98.7%	97.4%	94.4%	97.4%	98.8%	100.0%	98.6%	93.3%	96.2%	100.0%	96.7%	96.2%	97.1%	98.6%	95.1%	94.0%	93.3%	96.1%

What the data is showing us...

for patients seen within 31 days after diagnosis - as the activity continues to increase the rate of those patients seen within 2 weeks is still above the target. It is above the target for 7 out of 9 months.

for patients subsequently seen within 31 days for surgery - as expected the activity has been low in the months of 20/21 but the rate of patients seen within 31 days has not been above target in all months except for October.

for patients subsequently seen within 31 days for drug treatments - the activity has been low for in the months of 20/21 but the rate of patients seen within 31 days has been maintained the above target threshold.

for patients subsequently seen within 31 days for radiotherapy - the activity has been low for the months of 20/21 and although the rate of patients seen within 31 days had been maintained above the target threshold for most months it did have a slow decline from September to November when it dipped below the target. However, in December it climbed back above target.

A verbal update will be provided at the board meeting.

Cancer 62 Day Waits

	Latest Data	High or Low	National Threshold	Actual Position	Status
CWT treated - 62 days urgent	Dec-20	High	85%	81.5%	■
CWT treated - 62 days - screening service	Dec-20	High	90%	83.3%	■
CWT treated - 62 days - consultant upgrade	Dec-20	High		70.4%	■

CWT Treated < 62 Days urgent - North Yorkshire - Current - Dec 2020

CWT Treated < 62 Days - Screening Service - North Yorkshire - Current - Dec 2020

CWT Treated < 62 Days - Consultant Upgrade - North Yorkshire - Current - Dec 2020

What the data is showing us...

for patients seen within 62 days after an urgent referral - as expected the activity has been lower in the months of 20/21 and is beginning to increase back to normal levels and as a consequence the patients seen within 62 days has improved also. However, when the 2nd wave of COVID hit it again affected the activity and rate against the target. For December the reasons behind the below target threshold were mostly "Complex diagnostic pathway" and "Health Care Provider initiated delay to diagnostic test or treatment planning".

for patients seen within 62 days from the screening service - the activity has been very low for most of the months in 20/21. However, October through December has shown large increases in cases but the rate of patients seen within 62 days around the target threshold had been met initially but has fallen again in November and December.

for patients seen within 62 days after a consultant upgrade - as would be expected the activity has been lower for the first few months of 20/21 but has quickly increased to activity above the same period in 19/20. The rate of patients seen within 62 days has maintained the same level throughout 20/21 except for the most recent month of December. The reasons for this decline is due to capacity and health care provider delaying the treatment or test.

A verbal update will be provided at the board meeting.

York FT	24	26	2	0	7	32	16	9	15	28	4	0	0	0	0	0	0	0	0	7	14	21
South Tees FT	0	0	0	0	0	0	3	2	8	8	5	3	0	0	0	0	0	0	0	8	9	5

What the data is showing us...

The CCG's A&E 4hour wait position is based upon a proportion of several of the providers data and is therefore an estimate. As at January following the high of 94.4% in June and improvements in November the rate has again fallen below 80%. The 3 providers data also reflects this drop in performance with only Harrogate improving in September and October. However, in January Harrogate improved slightly, York has declined despite an improvement in November but South Tees has continued to fall.

A verbal update will be provided at the board meeting.

South Tees FT	13	14	7	3	7	7	5	3	5	8	6	3	1	4	4	10	5	4	7	2	3

What the data is showing us...

Clostridium Difficile cumulative cases attributed to the CCG are now above the target. Harrogate continues to have few cases each month but York and South Tees numbers are starting to rise. With South Tees at lower levels than last year but York starting to rise over the last couple of months. There continues to be no MRSA cases for the CCG and at York and Harrogate with just 2 at South Tees in July and September. E.Coli cases attributed to the CCG over the last 3 months have hovered around the unchanged target from 19/20. Harrogate continues to have few cases and York initially had less per month than in the months of 19/20 but is continuing to increase. South Tees is beginning to show signs of an increased number of cases too.

A verbal update will be provided at the board meeting.

What the data is showing us...

The number of Face-to-Face appointments as expected dropped from March onward but has begun to pickup over the following months but has not as yet returned to pre-COVID levels. Also, the Non Face-to-Face appointments may not accurately represent all video/online appointments.

A verbal update will be provided at the board meeting.

Appropriate prescribing of broad spectrum antibiotics in Primary Care - North Yorkshire - Current - Nov 2020

	Apr 2019	May 2019	Jun 2019	Jul 2019	Aug 2019	Sep 2019	Oct 2019	Nov 2019	Dec 2019	Jan 2020	Feb 2020	Mar 2020	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020
Hambleton, Richmondshire & Whitby CCG	10.3	10.1	10.1	9.9	9.7	9.6	9.4	9.2	9.1	9.0	8.9	8.8								
Harrogate and Rural District CCG	6.7	6.7	6.7	6.7	6.6	6.6	6.5	6.4	6.3	6.2	6.3	6.2								
Scarborough and Ryedale CCG	5.0	4.9	4.8	4.8	4.7	4.7	4.5	4.5	4.4	4.4	4.3	4.2								
North Yorkshire CCG	7.4	7.3	7.2	7.2	7.0	7.0	6.8	6.7	6.6	6.6	6.5	6.5	6.6	6.7	6.8	6.9	7.0	7.1	7.3	7.5

What the data is showing us...

The first graph shows that our overall rate of antibiotic prescribing within North Yorkshire CCG has been decreasing each month during this financial year, following a COVID related increase in March 2020. The second graph shows that our rate of prescribing of broad spectrum antibiotics appears to have increased slightly in the months leading up to September 2020. However, it should be noted that the actual number of prescriptions for this type of antibiotic has stayed fairly steady during this time period. As this indicator is expressed as a percentage of the total number of antibiotic prescriptions (and the total is decreasing) the percentage of broad spectrum antibiotics has therefore gone up.

A verbal update will be provided at the board meeting.

Dementia

	Latest Data	High or Low	Threshold	Actual Position	Status
Dementia - Estimated diagnosis rate	Dec-20	High	66.7%	58.6%	

	Apr 2019	May 2019	Jun 2019	Jul 2019	Aug 2019	Sep 2019	Oct 2019	Nov 2019	Dec 2019	Jan 2020	Feb 2020	Mar 2020	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020	Dec 2020
Dementia Diagnosis Rate	65.9%	66.2%	66.2%	66.2%	66.0%	65.6%	65.1%	64.7%	64.3%	63.6%	61.9%	63.2%	61.3%	60.1%	59.5%	59.9%	59.5%	59.0%	58.8%	58.8%	58.6%

What the data is showing us...
 The dementia diagnosis rate has been close to the threshold for many months. However, since last October it has started to slip a little each month with the COVID restrictions appearing to not have had a significant detrimental affect unlike other health areas. However, it is still continuing to decline each month. Over 12 months to December 2020 it has dropped 6.1%.

A verbal update will be provided at the board meeting.

IAPT

	Latest Data	High or Low	Threshold	Actual Position	Status
IAPT Roll-Out	Nov-20	High	4.8%	3.4%	
IAPT Recovery Rate	Nov-20	High	50.0%	57.7%	

IAPT Roll-Out - North Yorkshire - Current - Nov-20

	Apr 2019	May 2019	Jun 2019	Jul 2019	Aug 2019	Sep 2019	Oct 2019	Nov 2019	Dec 2019	Jan 2020	Feb 2020	Mar 2020	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020
IAPT Roll-Out	3.4%	3.6%	3.6%	3.8%	3.6%	3.6%	3.4%	3.4%	3.4%	3.4%	3.3%	3.2%	2.6%	2.1%	2.1%	2.5%	2.8%	2.9%	3.1%	3.4%

IAPT Recovery Rate - North Yorkshire - Current - Nov-20

	Apr 2019	May 2019	Jun 2019	Jul 2019	Aug 2019	Sep 2019	Oct 2019	Nov 2019	Dec 2019	Jan 2020	Feb 2020	Mar 2020	Apr 2020	May 2020	Jun 2020	Jul 2020	Aug 2020	Sep 2020	Oct 2020	Nov 2020
IAPT Recovery Rate	56.4%	55.1%	54.2%	54.2%	52.0%	51.9%	52.6%	52.9%	55.5%	53.8%	55.6%	52.6%	51.4%	52.1%	53.5%	55.3%	54.8%	55.7%	55.9%	57.7%

What the data is showing us...

For the CCG, the IAPT Roll-Out has been below the target for many months and was maintaining a level above 3% but since the COVID restrictions came into force this had declined to just above 2%. As at November it has improved further on July to be above 3% for 2 months.

The Recovery rate for the CCG has maintained its above target levels before and since the COVID restrictions. As at November it has increased for the 3rd month in a row and higher than the lowest point in April 2020.

A verbal update will be provided at the board meeting.
