All significant risks (those scored 15 or above) are reported to the Committee on a quarterly basis. This provides Members of the Committees with an opportunity to scrutinize risks and ensure appropriate mitigations are in place to manage risks appropriately.</p> <p>Following the move in October 2021 for FPCCC decisions to be made virtually, unless the issue is significant enough to require a meeting of the members, risks have continued to be monitored by Risk Leads, Director Leads, the Corporate Risk Review Group, The Governing Body (when appropriate) and the Audit Committee (when appropriate).</p> <p>In 2021/22, the Board Secretary twice conducted a deep dive with Directorates on all risks.</p> <p>The Audit Committee reviews all risks twice per year.</p>

Summary of the key work of the Committee and the assurances provided to the Governing Body.

From April 2021 to October 2021, the work of the FPCCC was a central part of the CCG's governance and assurance arrangements. As a result of the activity undertaken by the FPCCC scrutiny has been maintained and assurances sought on:

- Monitoring that the CCG has operated within its Standing Financial Instructions and statutory requirements in respect of financial and performance management;
- Challenging the financial position of the CCG and ensuring financial management achieved economy, effectiveness, efficiency, probity and accountability in the use of resources;
- Monitoring the performance of the CCG's contracts;
- Approving the Savings and Efficiency Delivery Programme which is developed by the Business Executive Committee;
- Overseeing the delivery of services provided to the CCG through the external contracts;
- Monitoring significant risks aligned to the Committee;
- Monitoring implementation of the relevant corporate objectives relating to the role of the Committee.

The FPCCC has provided assurance reports to the Governing Body on finance, contracting, QIPP, commissioning and performance. The FPCCC has also monitored Covid-19 spend throughout 2021-22.

Due to the transition arrangements moving to the ICB, in October 2021, it was agreed by the Committee and by Governing Body Members to move to the minimum requirement of FPCCC delegation in terms of delegated decision making. The rationale for this was that:

- all of the assurance work of FPCCC passes to the GB (which already receives assurance reports for Finance, Contracting, Commissioning, Performance and Risk)
- items that require a lower level of delegation than Governing Body level remained with the FPCCC members so as not to overextend the GB agenda and ensure that decisions of the FPCCC delegated level can be made swiftly to allow CCG work can continue at a reasonable pace.

In practical terms this meant that, from October 2021, FPCCC formal committee meeting were stood down and replaced by virtual decision-making, unless there was exceptional circumstances agreed by the Executive Lead and Chair that required an item to be discussed.

All virtual decisions were logged and reported to the Governing Body at meetings in public. Monthly informal meetings between the FPCCC chair and the CFO continued to ensure that these new arrangements ran smoothly.

The paper detailing the changes went to the Governing Body in October 2021 and can be found on the website:
